

SL NO	PROBLEM	APPLICATION/WEBSITE	LIKES	DISLIKES	IMPROVEMENTS	OCCUPATION
1	Cannot Navigate through the website.	<a href="https://www.art.yale.edu">https://www.art.yale.edu</a>	None (Website clearly indicates)	<ul style="list-style-type: none"> <li>Unpleasant view.</li> <li>Page is flooded with text making site unreadable</li> </ul>	<p>For such a prestigious institution, page should have all the contents in an organized fashion. (Navbar, body of the website, announcements, important links).</p> <p>Mainly website should have proper directions in order to access it.</p>	Software Engineer
2	Not visually knowledgeable.	<a href="https://boston.craigslist.org">https://boston.craigslist.org</a>	Contacts present in the site are very useful.	Lack of visual guidance.	Adding Images can improve the usage of the website (Images / videos can convey more than just a page full of words)	Home Maker
3	Lots of advertisements.	<a href="https://www.dailymail.co.uk/ushome/index.html">https://www.dailymail.co.uk/ushome/index.html</a>	Website is informative about the happenings in and around the world.	<p>Unintentional clicks might lead to suspicious websites which are tricky to get back by elderly people or people with less computer knowledge.</p> <p>Ads present might even break the flow of reading i.e., more distraction.</p>	Getting rid of advertisements might increase the number of viewers.	Veteran
